

Cresotech Photo.Point

**FOR THE ATTENTION OF THE OEM DISTRIBUTION MANAGER
AND ADVERTISING MANAGER**

Cresotech, Inc. is pleased to introduce you to PhotoPoint for Windows, a multimedia tool that simply and quickly creates a photo presentation or personal style photo album.

You can use our Cresotech PhotoPoint software for OEM distribution or as an advertisement CD with the following benefits:

- **PhotoPoint is a popular tool that caters for both the home and professional user.** Home users like PhotoPoint software because it is fun, easy to use, powerful and stylish.
- **Distribute PhotoPoint with your corporate style.** SOHO users will enjoy their photo presentation with your company program shape (skin), frames, music and logos. Fun family photo presentations will be associated with your company.
- **PhotoPoint creates a new method for your product placement to be enjoyed daily in a family environment.**
- **PhotoPoint is ideal for home use because it is simple to use** and now comes complete with CD-Layout, covers, box, user's guide, help system and www-pages.

Within one week Cresotech Inc. can develop your special corporate skin file, frames with your logo, general artwork and background music.

We can prepare either installation packages or software copies running directly from CDs without any installation, to your specification. Cresotech ensures that you will receive a very professional product quickly and with a minimum of effort from your company personnel.

Trial versions and full details are available for free download from our web page <http://www.cresotech.com/photopoint/>

Looking forward to hearing from you,
