

## Press Release No.1

# CRESOTECH POCKETPOINT - PHOTO GALLERY IN YOUR POCKET

For Immediate Release

Contact: Ivan Matychyn, Sales Manager  
Digsee Ltd. / Cresotech, Inc.

### **Cresotech, Inc. has released Cresotech PocketPoint version 1.2, an easy Pocket PC based multimedia tool that creates photo presentations or photo preview albums simply and quickly.**

Using Cresotech PocketPoint, you can arrange the slide show of your photos taken during your last vacation or create a commercial presentation of your company's products. You don't need any special skills or experience to use it. All you need to do is select the necessary images for the Playlist, tap the Start Presentation button and enjoy the great show!

You can have your product presentation or picture gallery always at your disposal, in your pocket! If you are sales manager who needs to promote the products of your company while you're on the go, Cresotech PocketPoint is optimal solution for you. It allows you to have all your ads ready in your pocket or hold a presentation anytime, any place. If you are a collector, Cresotech PocketPoint gives you with the convenience and safety of showing your collection to friends or colleagues, while avoiding the unnecessary risk of taking the physical samples along with you.

Cresotech PocketPoint allows the user to easily browse all the images stored on the Pocket PC device or review selected images in the slideshow mode. In addition, you can move the images around for perfect placement of the picture on the device's screen. Preview option when selecting images for the view list is also included. Cresotech PocketPoint supports most popular graphical formats. An intuitive interface, adjustable features and detailed reference system make the program user-friendly and easy-to-understand.
